TryCatch Software Training Institute, Borivali Python Full Stack Development	Sept 2024 - Oct 2025
St. John College of Engineering (University of Mumbai), Palghar B.E. in Computer Engineering	Aug 2020 - May 2024 CGPA - 7.92
Chinmaya Vidyalaya (CBSE), Palghar Higher Secondary School Certificate (HSC)	June 2019 - May 2020 Score - 77.80%
Chinmaya Vidyalaya (CBSE), Palghar Secondary School Certificate (SSC)	June 2017 - May 2018 Score - 87.00%

SKILLS

Programming languages: Python, JavaScript, SQL
Frontend: HTML, CSS, Tailwind CSS, Bootstrap
Framework: ReactJs, NextJs, Django, DRF, Flask
Tools: Git, Vercel, Render
Soft Skills: Adaptability, Creativity, Problem Solving

WORK EXPERIENCE

Tata Steel WRM (Intern)	Dec 2022 - Jan 2023
• Developed a Python desktop app for heat flux calculations and salt spray data management using SQLite3.	

PROJECT WORK

- Insider by Zomato Clone (2025):** Created a Django-React web app with role-based access, secure auth, event booking APIs, and a ticket system. Used SQLite/Supabase and Tailwind CSS for a responsive UI.
Tech Stack – ReactJs (Frontend), Django (Backend & REST API), HTML5, CSS3, JavaScript, Tailwind CSS
- Interactive Quiz Platform (2025):** Built a quiz app using Next.js that features category-based questions, real-time score tracking with React Hooks, and 3D Spline integration. designed for responsiveness using custom CSS and Bootstrap.
Tech Stack – React JS, Bootstrap, API (mock-api)
- E-Commerce Dashboard (2025):** CRUD operations for products and categories, API integration, authentication, and real-time updates were all included in the admin dashboard. centered on a seamless administrative experience.
Tech Stack – React JS, Bootstrap, API (mock-api)
- Puneri Paltan Clone (2025):** Using Next.js and Bootstrap, I recreated the official Puneri Paltan website, complete with player profiles, match schedules, and team statistics. installed on Vercel.
Tech Stack – Next JS, Bootstrap

CERTIFICATE

- Avishkar Inter-Collegiate Research Convention through University of Mumbai.
